

SKC-West, in collaboration with the local Hawaii AIHA and ASSP sections is pleased to present:

Industrial Hygiene Professional Development: Occupational Noise Exposure Measurement with Air Sampling Methods and Strategies

SKC Inc. instructors have extensive experience in the field of occupational noise and air sampling strategies. This course has been well received in various parts of the country as an excellent introductory course to air sampling and noise dosimetry, or as a good refresher course. It is also a great way to see new sampling equipment to understand new technology capabilities and benefits.

What you'll learn

This intensive short course will cover hands-on instruction with both noise dosimeters and air sampling pumps and the attendees will be introduced to the basics of Hearing Conservation as well as method selection and strategies for air sampling.

What we'll cover

- Physics of Sound
- Introduction to Hearing Conservation
- Basic Noise Measurements
- Government Noise Regulations
- Conducting Noise Dosimeter Studies
- Understanding Key Noise Dosimetry Terms
- Hands on Exercises with Noise Dosimeters
- Explanation of Ototoxicants
 - Hearing Loss Through Chemical Exposure
- Selecting the correct Sampling and Analytical Methods
- Common Pitfalls of Air Sampling
- Proper use of Sampling Pumps, Calibrators and Accessories

Who should attend

- Industrial Hygienists
- Safety Professionals
- Occupational Hearing Conservationists
- Noise Consultants
- Industrial and Plant Engineers
- Government Noise Specialists
- Occupational Health Professionals

Enrollment is limited to afford everyone an opportunity for hands-on work with equipment used in the seminar. Registration will close on Sept 19th to allow for admittance on base.

October 3, 2022

**Kaneohe Marine Corps Base
Officers Club
502 Reed Road - Kailua, HI 96734**

Cost to Attend

Member AIHA or ASSP	\$90
Non-Member	\$120

Continental breakfast, lunch buffet and all course materials included.

Seminar Schedule

8:00	Registration / Continental Breakfast
8:30	Seminar starts
12:00	Lunch (included)
1:00	Seminar continues
5:00	Seminar ends

Continuing Education Units

ABIH 1.0 ~ ASSP 0.8 points

A certification of attendance and course agenda will be provided to attendees for use in obtaining CEU
