

# Safety Management Specialist (SMS) Examination Preparation Workshop

The Building Industry Association of Hawaii (BIA) along with the ASSP Hawaii Chapter will be hosting a Safety Management Specialist™ (SMS) Examination Preparation Workshop presented by SPAN™ International Training LLC. The SMS exam is a four and one-half hour computer delivered examination consisting of 200 questions that examine the candidate's applied knowledge of the application of experience gained through professional practice. BCSP awards the Safety Management Specialist (SMS) to individuals who demonstrate competency and work part-time or full-time in occupational health and safety activities devoted to the prevention of harm to individuals in the workplace environment. Whether your career goals include seeking a new position, moving up in your current organization or moving to private practice, you can accelerate your opportunities by achieving the Safety Management Specialist (SMS) certification. You can improve your chances for success, being selected for leadership and senior positions, and increased salary through the SMS credential. BCSP offers you the opportunity to rise above the competition by adding the SMS certification to your portfolio.

This course is designed to prepare individuals for the Comprehensive Examination leading to certification as a SMS. The workshop follows the exam blueprint. Your preparation will include lectures, sample problems, and discussions on a variety of subjects to prepare the student for the exam. At the completion of the SMS prep workshop participants will learn to:

- Determine whether you are ready to attend the Safety Fundamental Examination
- Identify areas where additional preparation is needed
- Design an individual study plan that ensures exam success
- Obtain answers to questions about core exam materials
- Become familiar with resources available to prepare for the exam
- Utilize information about certification requirements and scoring procedures in your test preparation
- Review content material utilizing a testing format

The workshop includes a two-volume set of professionally published SMS Exam Study Workbooks, BCSP approved scientific calculator, pencils, notepad, highlighter, and SPAN™ offers the CertBok® online learning management system. The CertBok® includes a targeted database of questions with multiple enhanced learning, exam simulation, and performance tracking capabilities. A six-month SMS CertBok® membership is provided as part of the workshop (\$275 value!).
