

# FREE OSHA Training for Manufacturing Facilities

## HAZARDOUS ENERGY CONTROL (LOCKOUT/TAGOUT) TRAINING

Georgia Tech is providing FREE training, funded by a Susan Harwood Grant, on OSHA's Hazardous Energy Control (Lockout/Tagout) Standard. This half-day course will highlight lockout/tagout hazards found in manufacturing facilities, and how to effectively prevent lockout/tagout accidents by implementing an effective energy control program. **COVID-19 protocols, including social distancing, will be followed.**

### UPCOMING COURSES:

November 30, 2021  
1:00 PM – 5:00 PM

### Training Location

BIA of Hawaii  
94-487 Akoki Street, Suite 213  
Waipahu, Hawaii 96797

### COURSE TOPICS:

- OSHA's Lockout/Tagout Standard
- Energy Control Programs
- Case Studies
- Energy Control Procedures

The material was produced under grant number SH-99019-SH0 from the Occupational Safety and Health Administration, U.S. Department of Labor. It does not necessarily reflect the views or policies of the U.S. Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. Government.

The objectives of the course are to:

- Discuss the importance of lockout/tagout;
- Identify sources of hazardous energy;
- Identify hazards associated with poor execution of lockout/tagout;
- Describe methods of hazardous energy control; and
- Describe the requirements for an effective energy control program.
